Fertilizer Research **39:** 259–261, 1994.

CONTENTS Volume 39 1994

Volume 39 No. 1

Effects of fertilizer price on feasibility of efficiency improvement: Case study for an urea injector for lowland rice 1
M. van Noordwijk, J.H.M. Scholten

The residual effectiveness of previously applied copper fertiliser for grain yield of wheat grown on soils of south-west Australia 11
R.F. Brennan

Diffusion of fertilizers from controlled-release sources uniformly distributed in soil 19
S.P. Friedman, Y. Mualem

Effectiveness of different phosphatic fertilizers measured using labelled superphosphate and phosphorus taken up by plants 31
L.C. Bezzola, S.C. Lopez, N.O. Barbaro

Slow release rate: Individual granules and population behaviour 39
M. Kochba, O. Ayalon, Y. Avnimelech

Effect of water supply on the response of wheat and triticale to applications or rock phosphate and superphosphate 43
M.D.A. Bolland

Production of high-quality liquid fertilizers from wet-process acid via urea phosphate 59
C.A. Hodge, T.W. Motes

Solubility of metallic-salt in acid nutrients in acid fertilizer solutions of urea phosphate, urea sulfate and urea nitrate 71
C.A. Hodge, L.C. Faulkner, T.W. Motes

Wheat growth from phosphorus fertilizers as affected by time and method of application in soil with an acidic subsurface layer 77
E. Purnomo, A.S. Black

Volume 39 No. 2

Phosphorus efficiency of sugarcane varieties in a tropical alfisol 83
B. Sundara

Comparison between two controlled-release fertilizers on selected foliage plants in an artificial potting mix 89
F.D. Rauch, P.K. Murakami

***Penicillium bilaji* and phosphorus fertilization effects on the growth, development, yield and common root rot severity of spring wheat** 97
R.J. Goos, B.E. Johnson, R.W. Stack

Response to N-fertilizer of Italian ryegrass grown alone and in mixture with berseem clover under continental irrigated mediterranean conditions 105
R.C. García de Arévalo, M.A. Sánchez, P.J.H. Algarra

Differences in the cadmium content of some common Western Australian pasture plants grown in a soil amended with cadmium – describing the effects of level of cadmium supply 113
R.G.V. Bramley, N.J. Barrow

Phosphate and phosphatase distribution in sediment depths of rockphosphate treated carp culture system 123
S.N. Sahu, B.B. Jana

The environmentally-sound management of agricultural phosphorus 133
A.N. Sharpley, P.J.A. Withers

Use of polyolefin-coated fertilizers for increasing fertilizer efficiency and reducing nitrate leaching and nitrous oxide emissions 147
S. Shoji, H. Kanno

Soil urease inhibition by thermal polymers of thioposphoryl triamide and phosphoryl triamide 153
R.J. Radel, A.A. Randle, Y.K. Kim

Volume 39 No. 3

Phosphorus requirement of a maize-cowpea sequential cropping on a paleudult 161–166
M.T. Adetunji

Effects of restrictions and prices of N, P and K on fertiliser inputs and yield deficits of sugar beet 167–178
M. Herlihy, T. Hegarty

Effects of partial acidulation on chemical and mineralogical characteristics of residual phosphate rocks 179–187
L.M. Condron, H.J. Di, A.S. Campbell, K.M. Goh, R. Harrison

Effect of phosphate on the sorption, desorption and plant-availability of selenium in soil 189–197
Z. He, X. Yang, Z. Zhu, Q. Zhang, W. Xia, J. Tan

Urea management for lowland transplanted rice as affected by application of farmyard manure 199–203
T.T. Son, R.J. Buresh

A test for phosphate rock reactivity in which solubility and size are combined in a dissolution rate function 205–215
J.H. Watkinson

Effect of split application of potassium on growth, yield and potassium accumulation by soybean 217–222
J.Singh Kolar, H.Singh Grewal

Application of ^{15}N-labelled urea to sugar cane through a drip-irrigation system in Mauritius 223–228
K.F. Ng Kee Kwong, J. Deville

The agronomic value of co-granulated Christmas Island Grade C phosphate rock and elemental sulphur 229–237
P. Loganathan, M.J. Hedley, M.R. Bretherton

Nitrogen uptake efficiency in maize production using irrigation water high in nitrate **239–244**
D.D. Francis, J.S. Schepers

Nitrogen use and losses in agriculture in subtropical Australia **245–257**
K.L. Weier

Volume contents **259–261**

Author index **262**

Instructions to authors **263–264**
